**Re: WC Docket No. 03-90 - Application by Qwest Communications
International Inc. for Authority to Provide In-Region InterLATA
Services in the State of Minnesota**

Dear Ms. Dortch:

Qwest Communications International Inc. ("Qwest") submits this letter at the request of Commission staff to update the record on the status of Qwest's Minnesota Performance Assurance Plan ("MPAP").

A final hearing on the MPAP was held by the Minnesota Public Utilities Commission ("MPUC") on April 8, 2003. At that hearing, the MPUC accepted the MPAP with a few changes that Qwest had agreed to make. Qwest filed a revised MPAP that reflected those changes on April 30, 2003, with the MPUC. A copy of that revised MPAP is attached to this letter. The MPAP, which is Exhibit K to Qwest's Minnesota SGAT, will become effective when Qwest's Section 271 Application for Minnesota is approved by the FCC.¹

The twenty-page limit does not apply to this filing. Please contact the undersigned if you have any questions concerning this submission.

Respectfully submitted,

/s/

Melissa Newman
